PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Prior to examination of the above-captioned patent application, it is requested that
the following amendments be entered.

IN THE CLAIMS:

Please replace Claims 1-17 as follows.

1,525
C10
B (Amended) Method for producing an insulated stator winding for rotating
electrical machines, in particular, direct current machines and alternating current machines,
wherein said insulated stator winding is constructed of at least one electrically conductive
conductor bar with a rectangular cross-section, whereby at least one electrically insulating
shrink-on sleeve with a rectangular cross-section is applied to the periphery of the
conductor bar and shrunk onto the conductor bar.
